SOHAM DARAK

Nagpur, Maharashtra, India | +91-9404467815 | daraksoham@gmail.com | GitHub | LinkedIn | Portfolio

Education

Ramdeobaba College of Engineering and Management (RCOEM), Nagpur **2023 – 2027**
B.Tech in Computer Science Engineering | Honours: Web Development

Technical Skills

Programming Languages: Java, Python, JavaScript, C, SQL, PL/SQL
Backend Development: FastAPI, Node.js, JWT Authentication, OAuth 2.0 (Google/GitHub Login)
Frontend Development: React.js, Next.js, HTML5, CSS3, Streamlit
Databases: PostgreSQL, MySQL, Oracle SQL, MongoDB
APIs, System Design & Cloud: REST APIs, GitHub API, Role-Based Access Control, AWS (EC2, ECR, ALB), Docker, Redis
DevOps & Tools: Jenkins, GitHub Actions, CI/CD, Git, Linux
CS Fundamentals & ML: OOP, Data Structures & Algorithms, DBMS, Operating Systems, Machine Learning

Projects

CodeGrowth AI – AI-Powered Code Review & Developer Intelligence Platform **Sep 2026**
Python, FastAPI, Next.js, PostgreSQL, Redis, LLMs, GitHub API

- Built an AI platform that connects to GitHub repos and reviews code for quality, security, complexity, and documentation.
- Designed multiple specialized AI agents (inspection, analysis, evaluation) coordinated by an orchestrator that picks the right agent per request.
- Combined rule-based checks with LLM analysis to flag issues like hardcoded credentials and unsafe SQL, with file-level fix suggestions.

RailQuick – AI-Powered Train Delay Prediction System **Feb 2026**
Python, Scikit-learn, Pandas, Flask, NLP, REST APIs

- Built an end-to-end ML pipeline for real-time train delay prediction using historical schedules and live weather data.
- Engineered automated preprocessing and feature pipelines, improving model generalization across routes.
- Deployed predictions via Flask REST APIs, enabling integration with scheduling and passenger info systems.

Agrimed – Farmer-Centric Crop Health Monitoring Platform **May 2025**
React.js, Tailwind CSS, Google Sheets API, REST APIs

- Built a responsive crop disease detection app covering 20+ crops and 100+ disease scenarios with instant diagnosis.
- Integrated Google Sheets API as a serverless backend for authentication and content management.
- Designed mobile-first for reliable usability in low-bandwidth rural environments.

Achievements

- **Runner-Up**, HackByte Hackathon 2026, IIIT Jabalpur – competed among 200+ teams with an AI-driven solution.
- Selected for **Capgemini Deep Dive Hackathon 2025** – built TRAFFICQ, a multi-agent traffic system (GPT-4, FastAPI, Redis, XGBoost).
- Participant, **YCCE Inter-College Hackathon 2026**.
- Solved **300+ DSA problems** across LeetCode, HackerRank, CodeChef, Codeforces – Codolio Profile.

Certifications

- **Google AI Essentials** – Google & Coursera
- **AWS Academy Machine Learning Foundations** – AWS Academy
- **AI-ML Virtual Internship** – AWS Academy
- **Web Development Virtual Internship** – EduSkills Academy

Leadership & Extracurriculars

Public Relations Coordinator – Compusys, Cultural Society CSE, RCOEM **2025 – 2026**

- Spearheaded promotions for 8+ technical events, boosting student participation and inter-department visibility through effective communication and stakeholder coordination.

Community Outreach Head – NSS RCOEM **2025 – 2026**

- Planned and executed 5+ volunteer campaigns, coordinating 30+ student volunteers across community programs.
